Getting started

Step 1: Installing the Batteries

1. Open the battery compartment lid.
2. Insert two AAA alkaline batteries into the compartment as shown.
3. Make sure to insert batteries with correct polarity. (AA or AAA)
4. Close the battery compartment lid.

Replacing the batteries

The battery indicator shows the battery condition on the display window during the battery status.

* If the battery indicator is red when you turn on the unit, replace the batteries.
* Replace all batteries together.

Using on heavier current

- When using a power source other than batteries
- Before cleaning or using when carrying the unit
- When using the unit with AC power

Troubleshooting

- Replacing the batteries
- If the battery indicator is red when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, check the battery connections.

Basic Operations

Recording Messages

1. Select the recording mode.
2. Select the folder.
3. Start recording.

Playback Messages

1. Select the folder.
2. Control playback.

Using the display window

- The display window is turned off when you turn on the unit.
- The display window is turned off when you turn off the unit.
- The display window is turned off when you press the "Stop/Play/Rec" button.
- The display window is turned off when you press the "Stop/Play/Rec" button.

Playing Back Messages

1. Select the folder.
2. Playback the message.

Recording Messages

1. Select the recording mode.
2. Select the folder.
3. Start recording.

Using the display window

- The display window is turned off when you turn on the unit.
- The display window is turned off when you turn off the unit.
- The display window is turned off when you press the "Stop/Play/Rec" button.
- The display window is turned off when you press the "Stop/Play/Rec" button.

Troubleshooting

- Replacing the batteries
- If the battery indicator is red when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, check the battery connections.

Basic Operations

Recording Messages

1. Select the recording mode.
2. Select the folder.
3. Start recording.

Playback Messages

1. Select the folder.
2. Control playback.

Using the display window

- The display window is turned off when you turn on the unit.
- The display window is turned off when you turn off the unit.
- The display window is turned off when you press the "Stop/Play/Rec" button.
- The display window is turned off when you press the "Stop/Play/Rec" button.

Playing Back Messages

1. Select the folder.
2. Playback the message.

Recording Messages

1. Select the recording mode.
2. Select the folder.
3. Start recording.

Using the display window

- The display window is turned off when you turn on the unit.
- The display window is turned off when you turn off the unit.
- The display window is turned off when you press the "Stop/Play/Rec" button.
- The display window is turned off when you press the "Stop/Play/Rec" button.

Troubleshooting

- Replacing the batteries
- If the battery indicator is red when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, check the battery connections.

Basic Operations

Recording Messages

1. Select the recording mode.
2. Select the folder.
3. Start recording.

Playback Messages

1. Select the folder.
2. Control playback.

Using the display window

- The display window is turned off when you turn on the unit.
- The display window is turned off when you turn off the unit.
- The display window is turned off when you press the "Stop/Play/Rec" button.
- The display window is turned off when you press the "Stop/Play/Rec" button.

Playing Back Messages

1. Select the folder.
2. Playback the message.

Recording Messages

1. Select the recording mode.
2. Select the folder.
3. Start recording.

Using the display window

- The display window is turned off when you turn on the unit.
- The display window is turned off when you turn off the unit.
- The display window is turned off when you press the "Stop/Play/Rec" button.
- The display window is turned off when you press the "Stop/Play/Rec" button.

Troubleshooting

- Replacing the batteries
- If the battery indicator is red when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, check the battery connections.

Basic Operations

- The display window is turned off when you press the "Stop/Play/Rec" button.
- The display window is turned off when you press the "Stop/Play/Rec" button.

Troubleshooting

- Replacing the batteries
- If the battery indicator is red when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, replace the batteries.
- If the battery indicator is not displayed when you turn on the unit, check the battery connections.
• You cannot add or overwrite a recording if the remaining recording time is not sufficient. 

At a factory setting, you cannot add a recording not to erase the last folder remained in the drive. You can add priority marks both in the stop mode and in any status. Erasing menu.

### Handling Folders

Adding / Deleting Folders

By selecting “Add/Over” in the menus can add messages. You can also delete unnecessary folders. 

Erasing all messages in a folder

You can set “Add/Over” to “Add REC” or “Rec Over” in the menus to erase the all messages.

Changing a folder name

You can change the name of a folder. 

Registering a new folder to the IC recorder

If you divide a named message, the both parts of the message will not be displayed properly.

### Adding Priority Marks

You can set priority marks ("High Priority") in the menus. 

Maximum messages per folder

Maximum messages per folder is 3 messages. 

### Erasing Folders

You can delete the folder having priority marks. 

### Expanding the Memory with the "Memory Stick"

You can expand the memory by inserting "Memory Stick" compatible devices. 

Maximum Folders

Maximum Folders is 99. 

Maximum Messages: Folder Full

Maximum Messages is 999.

### Other Operations

Formatting the Memory

You can format the memory unit of "Memory Stick" with the IC recorder. 

Maximum recording time and number of messages

The maximum recording time and number of messages is 99 hours 59 minutes and 59 seconds.

### Notes

Notes

Notes are displayed on the display window and you can recognize the notes.

Notes are displayed on the display window and you can recognize the notes.

Notes are displayed on the display window and you can recognize the notes.
